Profile

I am a dedicated and creative UX/UI and graphic designer, just starting my career. I've worked on two projects where I learned how to design user-friendly interfaces and attractive graphics. I'm eager to learn more and grow in the design field. I'm passionate about creating designs that people enjoy using, and I'm excited to bring my ideas and hard work to my first job.

Projects

ZenCycle (Cycle rental Application)

- I have created a cycle rental application designed to assist those who do not own cycles and those who have cycles but have not used them for a long time.
- Tools used: Figma, illustrator,photoshop

Degree Coffee Product & website design

- The Degree Coffee product combines tradition with innovation through a digital cap, offering a modern take on classic coffee.
- Tools used: Figma, illustrator,photoshop
